Preface: Fat Grafting for Aesthetic Facial Surgery	xi
Shahrokh C. Bagheri, Husain Ali Khan, and Behnam Bohluli	
The Past, Present, and Future of Facial Fat Grafting	1
James D. Frame	
 Video content accompanies this article at http://www.oralmxsurgeryatlas.theclinics.com .	
Introduction	1
Past	3
Understanding the superficial and deep fat spaces on the face	4
Methods of fat harvest	4
Injecting technique	4
The future	5
Current Techniques in Fat Grafting	7
Shahrokh C. Bagheri, Behnam Bohluli, and Elizabeth K. Consky	
Introduction	7
Preoperative preparations	7
Medical optimization	7
Surgical technique	8
Graft processing	8
Fat transfer	10
Postoperative care	12
Fat Grafting in Facial Aesthetic Units	15
Husain Ali Khan and Seied Omid Keyhan	
Introduction and history	15
Facial aesthetic units	15
Goals and outcomes	16
Preoperative evaluation	16
Patient positioning and skin marking	17
Fat harvesting	17
Combination of platelet-rich plasma or platelet-rich fibrin with fat	17
Fat injection in facial aesthetic units	18
Nose	18
Technique and considerations	18
Volume	18
Problems and complications	18
Lips	19
Technique and considerations	19
Volume	19
Problems and complications	19
Cheek	19
Technique and considerations	19
Volume	20

Contents

Problems and complications	20
Nasolabial fold and marionette groove	20
Technique and considerations	20
Volume	21
Problems and complications	21
Forehead, brow, temple	21
Technique and considerations	21
Volume	21
Problems and complications	21
Mandible and chin	21
Technique and considerations	21
Volume	21
Problems and complications	21
Orbital rim and periorbital area	21
Technique and considerations	21
Volume	21
Problems and complications	21
Application of buccal fat pad as a donor site	21
Autologous Fat Transfer for Facial Augmentation and Regeneration: Role of Mesenchymal Stem Cells	25
Luigi Clauser, Antonio Lucchi, Ilaria Tocco-Tussardi, Chiara Gardin, and Barbara Zavan	
Introduction	25
Nature of the problem	25
Fat components	25
Adipose-derived stem cell isolation	26
Adipose-derived stem cell potential for clinical applications	27
From the bench to the bedside	27
Preoperative planning	27
Procedural approach	27
Postprocedural care	28
Potential complications	28
Contraindications	28
Fat graft take, volume maintenance, and longevity	28
Summary and future perspectives of fat grafting	29
Clinical cases	29
Case 1	29
Case 2	29
Case 3	29
Case 4	30
Case 5	30
Case 6	30
Case 7	30
Case 8	31
Fat Graft with Growth Factors	33
Farzin Sarkarat and Roozbeh Kahali	
Introduction	33
Platelet-derived growth factor	33
Insulinlike growth factor	34

Vascular endothelial growth factor	35
Fibroblast growth factors	35
Platelet-rich plasma	35
Discussion	36
Summary	38
Autologous Fat Augmentation of the Face	41
Suzan Obagi and Carolyn Willis	
Introduction	41
Anatomic considerations	41
Preoperative planning	42
Medical history	42
Physical examination	43
Preoperative preparation	43
Surgical approach	43
Instruments	43
Fat transfer procedure	43
Additional procedures	46
Potential complications	46
Lidocaine toxicity	48
Opioid overdose	48
Benzodiazepine overdose	48
Anaphylactic reactions	48
"Pearls and pitfalls"	48
Postoperative recovery	48
Clinical results in the literature	48
Summary	49
Fat Grafting as an Adjunct to Facial Rejuvenation Procedures	51
Behnam Bohluli, Sharokh C. Bagheri, and Elizabeth K. Consky	
Introduction	51
Mechanisms of facial aging	51
Rationale for adding fat grafts to rejuvenation operations	51
Volume restoration	52
Contour restoration	52
Planning a more conservative approach	52
Skin quality	52
Fat grafting in forehead rejuvenation	53
Fat grafting used as an adjunct to surgical treatment in distinctive anatomic regions of upper face	53
Deep glabellar grooves	53
Temples	53
Deep upper lid sulcus	54
Lateral brow	54
Fat grafting concurrent with middle face rejuvenation procedures	55
Fat grafting used as an adjunct to surgical treatment in distinctive anatomic regions of the midface	55
Fat grafting concurrent with lower face rejuvenation procedures	55
Fat grafting used as an adjunct to surgical treatment in distinctive anatomic regions of the lower face	55
Fat grafting versus fillers and implants for increasing volume of the aging face	56

Autologous Fat Transfer for Maxillofacial Reconstruction	59
Ryan M. Diepenbrock and J. Marshall Green III	
Congenital deformities	60
Acquired deformities	61
Traumatic deformities	61
Surgical technique	61
Alternatives	62
Case 1	62
Case 2	63
Case 3	63
Case 4	64
Case 5	65
Case 6	65
Case 7	66
Case 8	66
Summary	66
Periorbital Rejuvenation with Application of Fat Transfer	69
Neophytos C. Demetriades and Dilip D. Madnani	
Components of facial analysis	69
Evaluating the periorbital area	70
Fat harvesting and grafting technique	71
Summary	75
Complications in Fat Grafting	77
Angelo Cuzalina and Andre V. Guerrero	
Blindness or stroke (intravascular injection)	77
Mechanism	77
Prevention	77
Management	77
Contour irregularity, unpredictability, and overcorrection and undercorrection	78
Mechanism	78
Prevention	78
Management	80
Swelling and bruising	80
Mechanism	80
Prevention	80
Management	80
Summary	80
Fat Grafting: Challenges and Debates	81
Sydney R. Coleman, Samuel Lam, Steven R. Cohen, Behnam Bohluli, and Foad Nahai	
To use or not to use	81
Longevity	82
Size of graft material	82

Number of treatments	82
Extensive overcorrection	82
Skin improvement	83
Graft storage	83
Looking ahead	84
