Contents

Preface: Trauma of the Head and Neck xi
Alaaaldin M. Radwan and Robert A. Strauss

Management of Panfacial, Naso-Orbital-Ethmoid and Frontal Sinus Fractures 83
Justin Pisano and Paul S. Tiwana

Naso-orbital-ethmoid fractures 83
  Introduction: nature of the problem 83
Surgical technique (naso-orbital-ethmoid) 84
  Preoperative planning 84
  Prep and patient positioning 84
  Surgical approach 85
  Surgical procedure 85
  Potential complications 85
  Pearls and pitfalls 86
Frontal sinus fractures 86
  Introduction: nature of the problem 86
Surgical technique (frontal sinus) 87
  Preoperative planning 87
  Prep and patient positioning 87
  Surgical approach 87
  Surgical procedure 87
  Potential complications 89
  Pearls and pitfalls 89
Panfacial fractures 89
  Introduction: nature of the problem 89
Surgical technique (panfacial) 89
  Preoperative planning 89
  Prep and patient positioning 89
  Surgical approach and procedure 90
  Pearls and pitfalls 90
  Immediate postoperative care 90
  Rehabilitation and recovery 91

Management of Nasal Fractures 93
Tirbod Fattahi and Salam Salman

Surgical anatomy 93
Clinical and radiographic diagnostic tools 93
Surgical management 95
Postoperative care and complications 97

Temporomandibular Joint Trauma 99
Shravan Kumar Renapurkar and Robert A. Strauss

Introduction 99
Incidence and presentation of temporomandibular joint trauma 99
Classification of temporomandibular joint trauma 100
Management of temporomandibular joint trauma 101
# Contents

- Bony injury 101
- Soft tissue injuries 103
- Potential complications of temporomandibular joint trauma management 104
  - Facial nerve injury 104
  - Ankylosis 105
  - Temporomandibular joint disorders 105
  - Asymmetry and malocclusion 105
- Summary 106

## Concepts of Rigid Fixation in Facial Fractures 107

Melvyn Yeoh and Larry L. Cunningham Jr

- Introduction 107
- Pathways of maxillofacial skeletal fracture healing 107
- Compression and tension forces 108
- Load-bearing versus load-sharing concepts in rigid fixation 108
- Materials for rigid fixation 109
- Summary 110

## Complicated Maxillofacial Fractures: Pediatric and Geriatric 113

Alissa N. Pullos and Deepak G. Krishnan

- Pediatric 113
  - Incidence 113
  - Special considerations 114
  - Special technical modifications 114
  - Potential complications 115
  - Anesthetic considerations 115
- Geriatric 115
  - Incidence 115
  - Special considerations 116
  - Special technical modifications 116
  - Potential complications 117
  - Anesthetic considerations 118

## Diagnostic Imaging of the Maxillofacial Trauma Patient 119

Daniel J. Meara

- Introduction 119
- Plain radiography 119
- Computed tomography 120
  - Computed tomographic angiography 121
  - Cone beam computed tomography 122
- Magnetic resonance imaging 122
- Ultrasound 123
- Special considerations 123
  - Virtual surgical planning 123
  - Intraoperative navigation 123
  - Intraoperative imaging 123
- Summary 125
**Post-Traumatic Injuries of the Trigeminal and Facial Nerve**  
Alaaaldin M. Radwan, Charles Boxx, and John Zuniga

### Contents

- Orbital anatomy, pattern of injury 157
- Surgical technique 157
  - Preoperative planning 157
  - Indications and contraindications 157
  - Reconstruction and implant selection 157
  - Preparation and patient positioning 157
- Surgical approaches 158
- Surgical procedure 158
  - Patient preparation 158
  - Inferior orbital access 158
  - Lateral orbital access 159
  - Medial orbital access 159
  - Superior/lateral orbital access 162
- Potential complications 162
  - Intraoperative complications 162
  - Early postoperative complications 162
  - Late postoperative complications 163
- Pearls and pitfalls 163
- Immediate postoperative care 163
- Rehabilitation and recovery 165
- Clinical results in the literature 165

---

### Tissue Expansion in the Head and Neck 167

Alaaaldin M. Radwan and Michael F. Zide

- Choice of expander 167
- Expander placement 167
- Internal or external port 169
- Injection of fluid 170
- Completion of expansion 170
- Capsule removal or release 170
- Flap design 171
- Complications 171

### Delaying Soft Tissue Repair 175

Thomas F. Burk and Michael F. Zide

- Routine wound repair 175
  - Delay: reduction of surgery 175
  - Delay: contamination 175
  - Delay: clearing skin cancer 176
- Discussion 176
