Contents

Preface: Perspectives on Zygomatic Implants: Overview, Controversies, and Future Directions ix
Anastasiya Quimby and Salam Salman

Zygomatic Implants: A Review of a Treatment Alternative for the Severely Atrophic Maxilla 163
Amanda Andre and Harry Dym
  Introduction 163
  Background 163
  Indications and contraindications 164
  Biomechanics 164
  Workflow: anatomically versus prosthetically driven 165
  Surgical technique 169
  Success rates and criteria for success 170
  Complications 170
  Clinics care points 171
  Summary 171

Zygomatic Implants: Placement Considerations in Implant-Supported Maxillary Prosthesis 173
Michael Alterman, Yoram Fleissig, and Nardy Casap
  Introduction 173
  Surgical approaches 173
  Implant layout 174
  Implant planning and positioning 174
  Armamentarium and surgical procedure 176
  Summary 182
  Clinics care points 182
  Acknowledgments 182

Preoperative Evaluation and Treatment Planning. Zygomatic Implant Critical Zone (ZICZ) Location 185
Carlos Aparicio, Roberto López-Piriz, and Miguel Peñarrocha
  Introduction 185
  Anatomic considerations 185
    The zygoma anatomy-guided classification 185
    The zygomatic implant critical zone 192
  Preoperative evaluation 193
    Health status evaluation and oral considerations 193
    Prosthetic and biomechanical evaluation 193
    Radiologic evaluation 193
  Legal aspects considerations 202
  Clinics care points 202
  Acknowledgments 202
Contents

The Zygoma Anatomy-Guided Approach for Placement of Zygomatic Implants 203
Carlos Aparicio, Waldemar D. Polido, and Hooman M. Zarrinkelk

The zygomatic anatomy-guided approach concept 203
Late complications of the zygoma-related rehabilitation 203
The zygomatic anatomy-guided approach concept for minimally invasive osteotomy 204
The alveolar tunnel osteotomy for a round section implant design 204
The alveolar and/or maxillary wall channel osteotomy for a flat section implant design 230
Clinics care points 231
Acknowledgments 231
Disclosure 231

Zygomatic Implants in Combination with Dental Implants 233
Luis G. Vega and Michael Border

Patient evaluation 233
Planning 233
Two zygoma implants and two anterior regular dental implants 233
Two zygoma implants and four anterior regular dental implants 234
Four zygoma implants and two anterior regular dental implants 234
Four zygoma implants and two posterior regular dental implants 234
Unilateral zygoma implants and regular implants 234
Partially edentulous patients 234
Surgical technique (pearls and pitfalls) 238
Intravenous sedation versus general anesthesia 238
Regular implant placement 239
Zygoma implant placement 239
One- versus two-stage dental rehabilitation 240
One-stage approach 240
Two-stage approach 240
Postoperative care and complications 240
Summary 241
Clinics care points 241

Quad Zygoma Protocol 243
Rubén Davó and Lesley David

Introduction and indications 243
Surgical procedure 243
Surgical techniques of placement of 4 zygoma implants 243
Classic Brånemark approach 244
Sinus slot approach 244
Classic exteriorized approach 244
Extremaxillary approach 244
Extended sinus lift 244
Zygoma anatomy-guided approach 244
Prosthetic Phase 246
Complications 246
Evidence of the quad zygoma technique 249
Summary 250
Clinics care points 250
Guided and Navigation Techniques for Zygomatic Implants

Yiqun Wu and Feng Wang

Case 1 253
Case 2 268
Clinics care points 269
Acknowledgments 269

Zygomatic Implants in Avulsive and Ablative Defects

Ashleigh Weyh, Anastasiya Quimby, and Salam Salman

Introduction 271
Indications 271
Contraindications 271
Preoperative planning 272
Surgical technique 273
Preparation and patient positioning 273
Surgical procedure 273
Postoperative management 275
Removable obturator versus fixed restoration 275
Removable obturator (attached to fixed custom milled bar) 275
Fixed restoration 275
Pearls and pitfalls 275
Summary 276
Clinics care points 276
Disclosure 276

Zygomatic Implants Operative Consideration to Minimize Technical Errors, Complications, and Their Management

Edmond Bedrossian

Clinics care points 289
Disclosure 289

Restoration of Zygomatic Implants

Sundeep Rawal, Tom Balshi, and Saj Jivraj

Introduction 291
Presurgical prosthetic planning 291
Zygoma implant placement and conversion of interim prosthesis 291
Fabrication of the definitive prosthesis 293
Laboratory procedures 294
Delivering the definitive prosthesis 296
Potential complications during the restorative process 296
Summary 298
Clinics care points 298
Disclosure 299
