Preface: Common Procedures in Cleft and Craniofacial Surgery	xi
David M. Yates and Mark A. Miller	
Erratum	xiii
Unilateral Cheilorhinoplasty	1
Suzanne Barnes, Patrick Christopher, Suganya Appugounder, and Paul Kloostra	
Introduction	1
Anatomy and Nomenclature	1
Anatomic Distortion	1
Anatomic Landmarks	1
Greater Segment	2
Lesser Segment	3
Basic Incision Design	4
Greater Segment	4
Lesser Segment	4
Modifications	5
Short philtral column	5
Deficient vermillion	5
Lesser segment lip height	5
Oral and Nasal Incisions	7
Dissection	7
Greater segment	7
Lesser Segment'	8
Reconstruction	9
Mucosa and Muscle	9
Skin and Vermillion	9
Transfixion Sutures	9
Final Photographs and Dressing	9
Pearls and pitfalls	10
Clinics care points	11
Disclosure	11
Primary Unilateral Cleft Lip Repair Using the Modified Millard Technique	13
Ashley E. Manlove and Alexis M. Linnebur	
Introduction	13
Preoperative planning	13
Patient preparation and positioning	13
Surgical approach and procedure	13
Closure	16
Postoperative care	16
Disclosure	17

Contents

Primary Bilateral Cleft Lip Repair Using the Modified Millard Technique	19
Ashley E. Manlove and Alexis M. Linnebur	
Introduction	19
Surgical technique	19
Preoperative planning	19
Patient preparation and positioning	19
Surgical approach and procedure	20
Closure	21
Postoperative care	23
Potential complications	23
Rehabilitation and recovery	24
Clinical results	25
Summary	25
Disclosure	25
Primary Palatoplasty	27
Gerardo P. Romeo and Sharon Aronovich	
Modern-day “straight-line” repair	27
Technique	27
Double-opposing Z-plasty (colloquially “Furlow” technique)	33
Technique	33
Clinics care points	36
Disclosure	36
Bone Graft and Reconstruction of the Cleft Maxilla: Alveolar Bone Graft and Midface Distraction	37
Aaron Wallender and Joshua Stone	
Introduction	37
Bone morphogenetic protein	37
Preoperative planning	38
Prep and patient positioning	39
Surgical procedure	39
Anterior iliac crest bone graft	39
Alveolar cleft bone grafting	40
Segmental maxillary distraction osteogenesis	40
Potential complications	44
Cleft site complications	44
Autogenous bone grafting complications	44
Complications of rh-BMP-2 use	44
Segmental distraction complications	44
Immediate postoperative care	44
Pearls and pitfalls	44
Summary	44

The Cleft Nasal Deformity	45
Weston Santee, David M. Yates, and Angelo Cuzalina	
Introduction	45
Content	45
Normal nose anatomy	45
Cleft nose deformity	45
Technique	46
Closure	56
Dressing	56
Postoperative care and complications	56
Summary	56
Clinics care points	56
Neonatal Mandibular Distraction	57
Michael A. Perrino	
Introduction	57
Principles in distraction osteogenesis	57
Patient evaluation	58
Technique for mandible osteotomies and internal distractor device placement	59
Device removal	61
Considerations and common complications	61
Summary	62
Clinics care points	62
Endoscopic Approaches to Craniosynostosis	63
David F. Jimenez and Hwi Sean Moon	
Introduction: nature of the problem	63
Surgical technique	63
Preoperative planning	63
Preparation and patient positioning	64
Surgical approach	64
Surgical procedure	66
Potential complications	69
Pearls and pitfalls	70
Immediate postoperative care	73
Rehabilitation and recovery	73
Summary	73
Acknowledgment	73
Disclosure	73
Fronto-orbital Advancement and Anterior Cranial Vault Reconstruction	75
Carlos R. Hernandez, Mark Miller, and Ramon L. Ruiz	
Surgical technique: fronto-orbital advancement and anterior cranial vault reshaping	76
Step 1: patient preparation	76
Step 2: tarsorrhaphy	76
Step 3: incision design	77

Step 4: osteotomy marking	79
Step 5: craniotomy	79
Step 6: fronto-orbital osteotomy	79
Step 7: orbital reshaping	79
Step 8: bandeau placement	80
Step 9: frontal bone reshaping	80
Step 10: closure	82
Avoidance and management of intraoperative complications	82
Postoperative considerations	83
Summary	83
Clinics care points	83
Craniofacial Syndromes: The Le Fort III Osteotomy for Correction of Severe Midface Hypoplasia	85
Daniel Schlieder and Michael R. Markiewicz	
Introduction: nature of the problem	85
Surgical technique	86
Preoperative Planning	86
Patient Preparation and Patient Positioning	87
Surgical Approach—External Distraction Approach	87
Surgical Procedure	88
Potential Complications	89
Immediate Postoperative Care	91
Rehabilitation and Recovery	91
Surgical technique—internal distraction approach	91
Preoperative Planning	91
Patient Preparation and Patient Positioning	93
Surgical Approach—Internal Distraction Approach	93
Potential Complications	95
Immediate Postoperative Care	98
Rehabilitation and Recovery	98
Clinical results in the literature	98
Summary	98
Orbital Hypertelorism	101
Stavan Y. Patel and Ghali E. Ghali	
Introduction: nature of the problem	101
What is orbital hypertelorism?	101
Causes of hypertelorism?	101
Goals and timing of treatment?	101
Who should evaluate the patient?	101
When to perform surgery?	101
What type of surgery should be performed?	102
Surgical technique	102
Preoperative planning	102
Preparing and positioning	102
Surgical approach	103
Potential complications	106
Intraoperative complications	106
Immediate postoperative complications	107
Delayed postoperative complications	107

Pearls and pitfalls	107
Immediate postoperative care	111
Rehabilitation and recovery	111
Clinics care points	111
Summary	111
Three Techniques for Reconstruction of Congenital Microtia: Porous Implant Ear Reconstruction, Auricular Reconstruction Using Autologous Rib, and Osseointegrated Craniofacial Implants with Auricular Prosthesis	113
Sheryl Lewin, Rachel Bishop, Jennifer E. Woerner, and David Yates	
Introduction	113
Porous implant ear reconstruction protocol: Sheryl Lewin, MD	113
Preoperative planning	113
Implant preparation	114
Skin and temporoparietal fascial flap dissection	114
Temporoparietal fascial flap coverage	117
Skin coverage	117
Tragal reconstruction	117
Dressing	118
Auricular reconstruction using autogenous rib: 2-stage approach-David Yates, DMD, MD, FACS	118
Stage 1: Auricular reconstruction using harvested rib cartilage	118
Stage 2: Lifting of the ear	123
Auricle reconstruction with osteointegrated craniofacial implants and prosthesis:	
Rachel Bishop, DDS, MD, and Jennifer Woerner, DMD, MD	124
Surgical planning	124
Procedure	124
Complications	128
Clinics care points	128
Disclosure	128
